

*tiles are populated by dropping in from the top (like tetris)*

**twitter feed**

*visualizer scans twitter feed  
for tweets with relavent keywords*

**personality tiles**

**trending (size relative to popularity)**

*trending tiles show what is popular throughout the events*

#### **personality tile animation**

*each personality tile alternates between the user's facebook profile photo and various vendors or music artists he/she voted for.*

*tile rotates and fades into each vote*

*tile rotates and fades back to profile image  
after a set time interval*

*tile continues to rotate through the user's top votes*
